

JEBERKOWITZ, LP

ARCHITECTURAL GLASS SINCE 1920

JEB EDGE™ ALL GLASS ENTRANCES

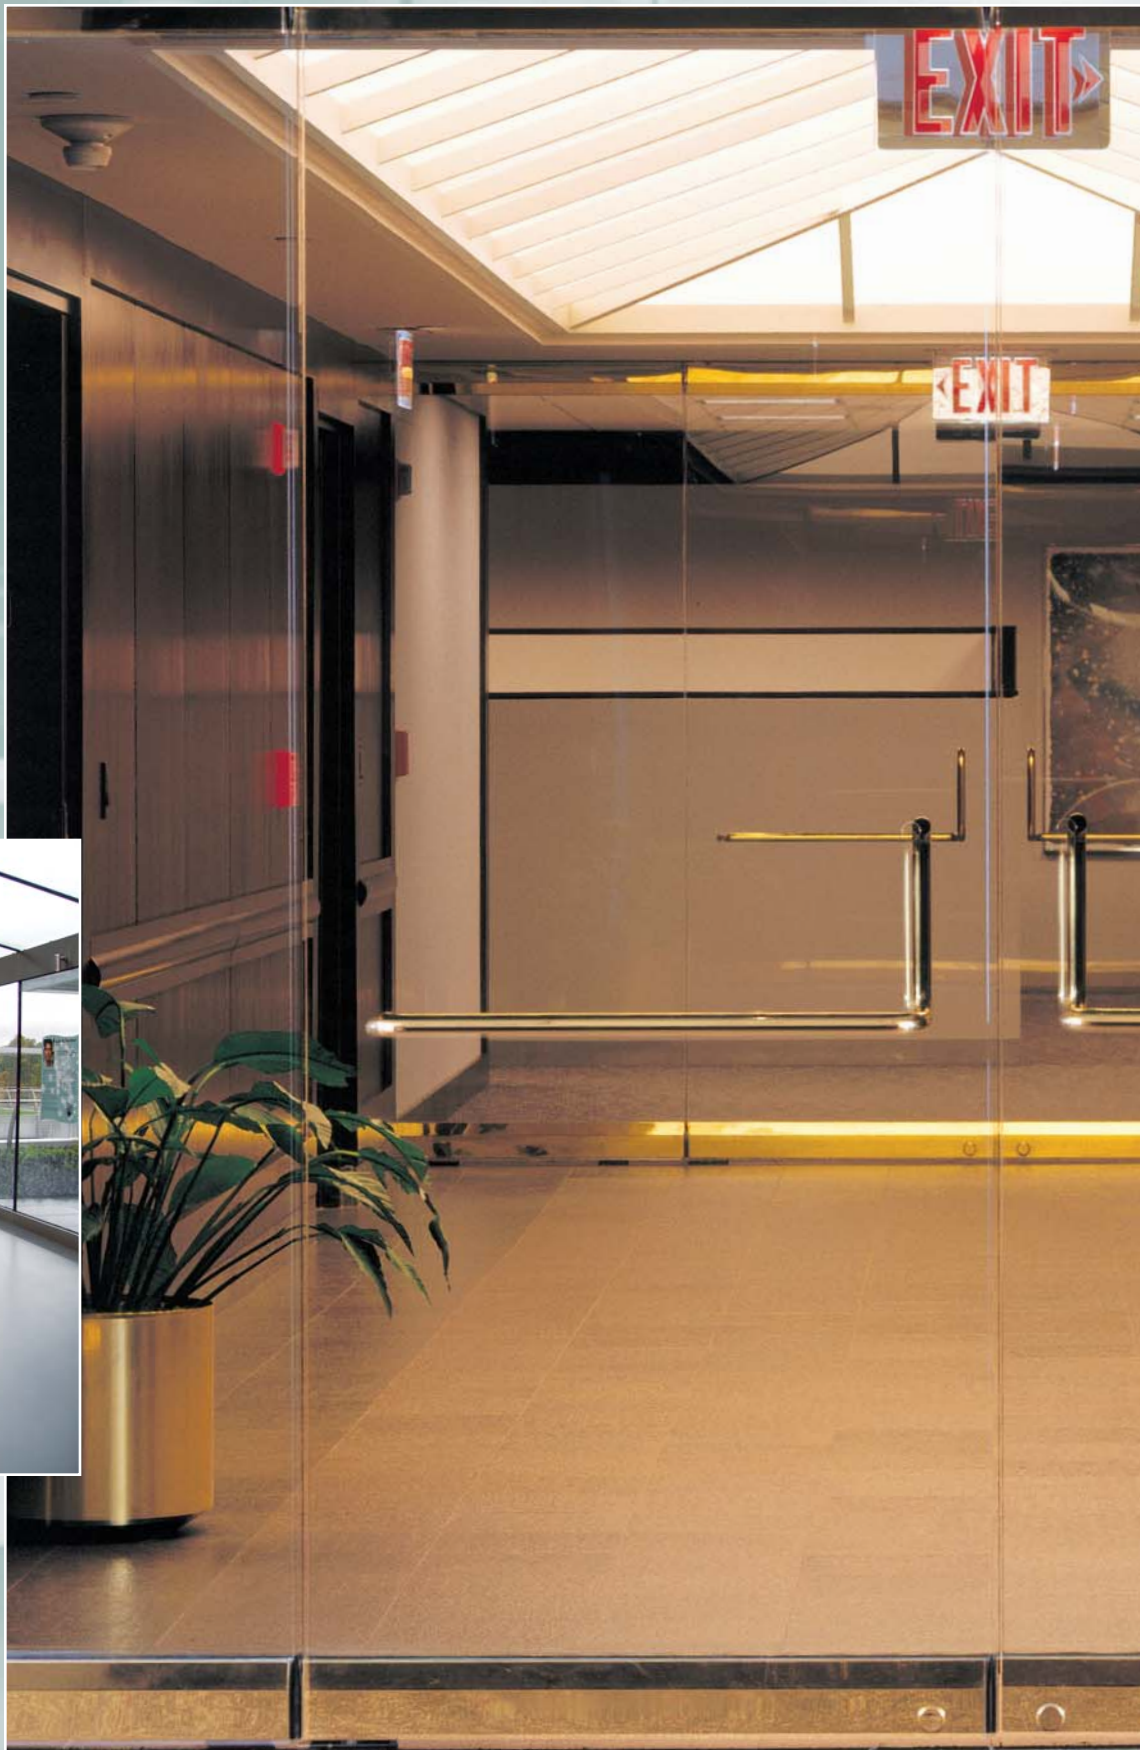

A N I N D U S T R Y L E A D E R

Since 1920, J.E. Berkowitz, L. P. has fabricated and distributed the highest quality architectural glass products. Headquartered in Pedricktown, New Jersey, the company operates a state-of-the-art 200,000 square foot facility with 1/8" through 3/4" capacity, three automated cutting lines, three architectural insulating lines, a laminating line, a horizontal double edger (X & Y axis), two diamond edging machines capable of both flat and mitered polished edges and CNC glass fabrication machines for holes, countersinks, notches and patterns. Additionally, our large architectural glass inventory includes clear, tinted, low-iron and acid etched glass products in sizes up to 130" x 204" and thicknesses from 1/8" through 3/4".

Daily deliveries are made on our private fleet of trucks to customers within ten Mid-Atlantic states. We also contract with reliable common carriers for projects outside of the Mid-Atlantic region.

JEB EDGE™ ALL GLASS ENTRANCES GIVE YOU AN EDGE.

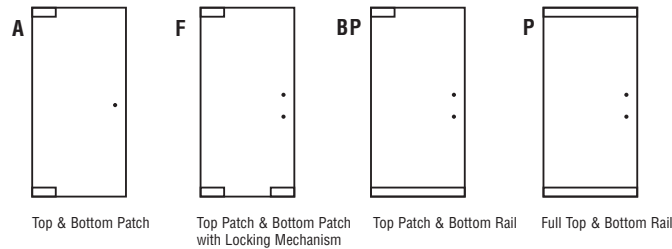

JEB EDGE™ All Glass Entrances combine the aesthetic beauty and visibility of glass with the engineered and tested hardware systems. The result is an All Glass Entrance that is easy to install, requires little maintenance and is a proven performer over time. And our unique dry-set application allows for field adjustments. A modern, attractive JEB EDGE™ All Glass Entrance is an effective way to draw people into a store or office. JEB supplies standard rail and patch fitting systems, sliding panel systems and All Glass Entrances complying with ADA Accessibility Guidelines.

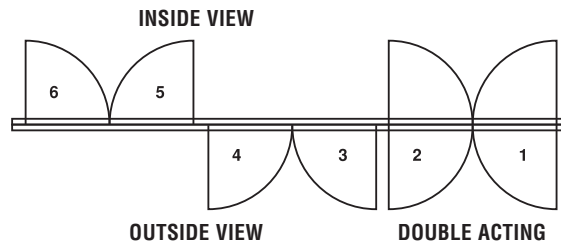

JEB DELIVERS QUALITY AND SERVICE.

JEB craftsmen are responsible for cutting, edging, drilling, notching, tempering and the assembly of JEB EDGE™ All Glass Entrances. Our Temperperfect® tempered glass used in your JEB EDGE™ All Glass Entrances provides your project with the most optically aesthetic glass available in the market. We maintain a large selection of stock finishes of hardware which enables us to provide the industry's quickest delivery of a finished door system. Experienced sales coordinators will work with you from the start of your project to completion, providing prompt quotations, technical support, and follow up on your order to ensure timely delivery. Our staff works closely with customers to coordinate the package of support hardware, including push-pulls, closers, thresholds, panics, headers and magnetic door locks.
