

## FUNCTION AND CARE

---

- Lead Free (Prop 65) BPA Free, Food Safe.
- Residential Dishwasher (Top Rack Only).
- Commercial Dishwasher Safe.
- For Cold and Room Temperature Foods only.
- Do not use in Microwave, Oven or on Stove Top.

### Care Instructions

- A frosty film may appear on resin after washing over time. This is easily removed. Use a small amount of cooking oil or cooking spray, rub with a soft cloth and rinse. The resin will return to it's original luster.
- Light scratches and scuff marks are also easy to remove. Use a Scotch Brite pad or any other mildly abrasive scouring pad and rub the scratches with the pad. A little soap and water or cooking oil on the pad may help alleviate or better disguise scratching.
- Never use sharp or serrated knives on resin. Those marks cannot be removed.
- Break resistant: Resin is highly durable and shatter proof but it is not break proof. It should be handled with care and treated as if it were glass or ceramic.

**Disclaimer:** Because our designs are handmade, we cannot guarantee color matching or that two pieces are the exact same.
