## Wherever Life Takes You, You're Covered

The X009-WRA's navigation system has maps of the U.S. and Canada, with over six million Points of Interest (POIs). Driving directions are displayed on the screen and turn-by-turn instructions are delivered by Text-to-Speech (TTS) technology. The free lifetime HERE Traffic RDS Service lets you see the congestion ahead of time and choose an alternate route.

## Customizable Short-Cuts At Your Fingertips

The "My Favorites" feature lets two users customize quick-access screens with up to 80 shortcuts to their most used features like Audio Sources (HD Radio™, Pandora®, iPod®), Phone Settings (Most-dialed Contacts) and Navigation Commands (Favorite Destinations, Quick Place Search).

## Bluetooth® Wireless Technology & Audio Streaming

The X009-WRA has Bluetooth® wireless technology for hands-free calls, plus view icons for phone battery level and cellular signal level on the 9-inch screen. Audio streaming from your smartphone ensures you're never without your favorite tunes.

## Keep the Factory Controls with an iDataLink® Maestro Module

The X009-WRA comes with an iDataLink Maestro module that integrates with your vehicle to retain factory features like steering wheel controls, media player control and hands-free calling. The system also displays vehicle information such as tire pressure, check engine codes and open door status.

## HDMI: More Entertainment with Just One Cable

The X009-WRA comes with an HDMI input delivering an all-digital audio and video connection via a single cable. Conveniently enjoy your favorite video content from your portable device while parked.

## Custom Sound Tuning with the Alpine TuneIt App

Customized sound tuning for your vehicle is available through the free Alpine TuneIt App for smartphones. Use the app to create custom sound settings, or choose from pre-made settings in the database. Settings that can be adjusted include Time Correction, Parametric EQ and Crossover.

Download the Alpine TuneIt App at [alpine-usa.com/tuneit](http://alpine-usa.com/tuneit)
