

PRODUCT ORIGIN AND GMO STATEMENT

01/01/15

This certificate is valid for 2015

This is to certify that all commodity and value-added products packed, processed or distributed by Church Brothers Produce, LLC are products of natural origin and are not derived from genetically modified organisms (GMO).

This certificate covers the following products: Value-added and commodity lettuces, kale, broccoli, green onions, cilantro, cauliflower, carrots, cabbage, napa, baby and tender leaf (spring mix-type items).

At this time our growers do not cultivate genetically modified fresh produce items in any of our agricultural operations. Furthermore we are not actively seeking or using GMO product in the commodity fresh-cut products we ship to you. In the event that we find it necessary to modify this policy we will notify you of the change before the first shipment of genetically modified cultivars.

If you have any additional questions, please feel free to contact us directly.

Certified,

Drew McDonald
